

Every inquiry. A clear next step.

When inquiries live across inboxes, forms and messages, follow-up falls on you. Wonder Systems helps owner-led service businesses turn that scattered work into one practical workflow, with you in control.

The first pass, prepared. The decision, yours.

An example inquiry workflow

Your tools, connected

Work with the tools your team already knows.

Your judgment, built in

A deliberate review checkpoint keeps you in charge.

Your workflow to own

Clear instructions and a guided handoff to your team.

Client Flow Reset

One inquiry-to-next-step workflow.

Up to 3 existing tools. One human checkpoint.

Tests with up to 3 realistic scenarios. One revision round.

Operating guide, handoff session and 14 days of in-scope bug fixes.

Email me for pricing

10 business days

Third-party software costs are additional.

Let's untangle your follow-up.

Email Kevin to talk through one workflow.
